## document **communication** system

# SHARP®

## advanced functionality in a compact desktop design

The new Sharp FO-DC535/DC635 Advanced Document Communication Systems are designed to grow with your business, so you can easily add feature sets as your business needs change. With modular solutions that deliver network scanning, network printing, web-based management, and advanced diagnostics, Sharp makes it easy to leverage your investment with added value.

### PC Lan Faxing

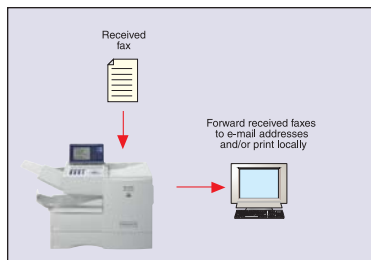

With Sharp's **convenient LAN Fax function**, you can transmit documents right from your desktop PC! With easy-to-use software, sending a fax is just as easy as 1-2-3. (Requires FO-LN1)

### Convenient, Built-in Network Scanning

With its flexible suite of document management tools, the Sharp FO-DC Series network scanning option provides seven scanning functions that can streamline your workflow—**Send to Desktop**, **Send to E-mail**, **Send to FTP**, **and Send to Group (e-mail/fax mixed)**, **Send to Internet Fax**, **Send to USB**, and **Send to Folder**. And with Sharpdesk™ document management software, you get a complete suite of tools to view, edit, distribute, and integrate faxed documents into your workflow for added efficiency. (Requires FO-LN1 and FO-NS2)

### Enhanced Inbound Routing

The Sharp FO-DC Series **Inbound Routing** feature automatically forwards inbound faxes to e-mail addresses for seamless distribution. You can even customize this feature to route faxes at specific dates and times. (Requires FO-NS2)

### Advanced Internet-based Control

The FO-DC Series Home Page offers many time saving tools, such as **scan and fax destination management**, **E-mail status notifications**, **remote diagnostics**, **device configuration**, and more. (Requires FO-LN1)

### Efficient Network Printing

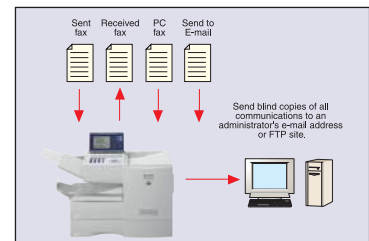

With the optional PCL6/PCXL Network Printing Expansion Kit, you can transform the FO-DC Series facsimiles into powerful 16-ppm network laser printers with **crisp 600-dpi resolution**. (Requires FO-LN1 and FO-NP1)

### Advanced Document Administration

With Sharp's **Advanced Document Administration** function, blind copies of all inbound and outbound faxes, PC faxes, and Send to E-mail documents are sent to an administrator's e-mail address or FTP site. This convenient feature tracks and maintains electronic records of all communications.

### Printer Administration Utility (PAU)

Designed to **speed up the installation and configuration of all connected Sharp devices**, PAU enables administrators to manage all SNMP-compliant printers on the network from a single interface. (Standard with FO-NP1)

### Printer Status Monitor

With the ability to **view network printer conditions right from your desktop**, Printer Status Monitor enables you to check paper levels, toner, and more—before you print your job. It even notifies you when your job is complete! (Standard with FO-NP1)

### Remote E-Mail Diagnostics

Sharp's Remote E-mail Diagnostics (R.E.D.) enables users, administrators, or your Sharp service providers to **automatically receive e-mail messages** regarding specific conditions of the FO-DC Series. From basic maintenance to more complex needs, R.E.D. helps ensure that your FO-DC Series performs optimally. (Standard with FO-LN1)

### LAN-Based F.A.S.T. System Remote Management

With Sharp's LAN-Based F.A.S.T. (Facsimile Automated Service Technology) Remote Diagnostics System, the FO-DC Series **monitors vital statistics**, such as fax operation, printing, paper handling, and supply usage. This enables your authorized Sharp dealer to monitor and diagnose potential issues right over the Internet—minimizing costly downtime. (Requires FO-LN1)
